Subject: weekly update

Hi All- Juniper continues making good progress on the replanting work. Some of the larger royal palms as well as sabals, black olives, and oaks have gone in. Understory planting is advancing along Fiddler's Creek Parkway, and work is beginning at the Sandpiper/ Fiddler's area. Repairs and modifications to the irrigation system continue. The sidewalk restoration is completed, the damaged areas are now ready to use. The fence installation along Creative Lane has progressed nicely, we're hoping to wrap that work up in the coming week. Just a few punch-list items came up this week for Brightview, they should be finishing those up and closing up in the coming week or two.

Regards,

Robert Dieckmann
